MODEL: Dual RS232 To TTL Converter, BZ001	**STOCK CODE: 170200006**

Description

This converter is used to convert from TTL to RS232 format or from RS232 to TTL format. It supports up to 2 channels TTL - RS232 interface. External DC power required.

It is powerful for computer to microcontroller interfacing.

Specification

- Support 2 channels of TTL – RS232 communication.
- External power supply (+7V-18V) required e.g. battery, adapter.
- Provide +5V DC power supply output.
- With ON/OFF switch and LED power indicator.
- Provide pin header and DB9 connector for interfacing.
- Size: 67mm*49mm.
- User manual provided.
